## ADDICTION

Since casinos opened in Iowa, the number of gambling addicts has tripled to over 150,000.

Iowa Dept. of Human Services

One of the fastest growing teenage addictions is not drugs, it's gambling! The proposals could put a casino next door to University of Nebraska at Lincoln, the highest concentration of teenagers in the state.

March 20, 1998, Truth About Gambling Foundation

## DOMESTIC ABUSE AND DIVORCE

## WHAT THE CASINOS DON'T TELL YOU

● **"TWO CASINOS" MEAN AT LEAST SIX CASINOS.** Any proposal that legalizes even one slot machine automatically allows Nebraska's four Indian tribes to open as many casinos as they want, untaxed and greatly unregulated.

Federal Gaming Regulatory Act of 1988

● **JUST ONE CASINO WOULD INCREASE NEBRASKA GAMBLING LOSSES BY OVER 50%.** One casino in Omaha would cause Nebraskans to lose \$191 million more gambling than they do now, with little impact on Council Bluffs casinos.\* Nevada casinos are spending millions on advertising in Nebraska to get a shot at those new gambling dollars.

\* Omaha Chamber of Commerce Report

● **"SLOTS IN NEBRASKA WILL JUST DRAIN MORE MONEY OUT OF THE STATE"** says John E. Anderson, Chair of the University of Nebraska Department of Economics and many others. **"Keep the money in Nebraska"** is just a slogan dreamed up by the hired guns of Nevada casino companies.
